

LICENCE MANAGER: CEMEX UK MARINE LIMITED

CEMEX UK Marine Ltd, a leading supplier of marine dredged sand and gravels into the UK and near Continent and part of CEMEX the global building materials supplier, has a position available for a Licence Manager.

Based in Southampton and reporting to the Resource & Systems Manager, you will be responsible for locating, acquiring, managing and maintaining access to adequate marine aggregate resources. You will ensure Environmental Impact Assessments are efficiently and cost effectively project managed. You will ensure dredging operations are conducted in compliance with the terms of all government permissions and strive to ensure continuation of the company's 'licence to operate'. Due to the nature of the role travel will be required.

- Are you educated to BSc level in marine geology, oceanography, geography, environmental or a similar marine science discipline?
- Do you have experience of marine environmental issues and management?
- Are you experienced in dealing with regulatory bodies and advisors?
- Are you able to organise your work and prioritise effectively?
- Do you have good report writing and communication skills?
- Is attention to detail a priority for you?
- Do you have effective project management capabilities?

If you can answer yes to the questions above then we would like to hear from you. In return we can offer a competitive salary, car or cash allowance, contributory pension, excellent benefits and training.

Please forward your CV and a covering letter to Graham Singleton, Resource & Systems Manager at CEMEX UK Marine Ltd via graham.singleton@cemex.com

If you would like further details regarding this opportunity please call on 02380 720212.

Closing date: 28 February 2010.
