

# How will appraisal have to change to embrace future challenges?

Presenter      David Cotterell  
Flood & Coastal Risk Management  
Environment Agency

# Change.... to meet the challenges.

They include:

- ➡ Climate change
- ➡ Legislative changes
- ➡ Funding constraints
- ➡ Sustainability
- ➡ Hard choices
- ➡ Wider portfolio of measures
- ➡ Surface and ground water issues
- ➡ Meeting local and national needs
- ➡ Future uncertainties

# Change.... to deliver better outcomes.

- ➡ Innovative solutions that fit their surroundings
- ➡ ....and can adapt to changing circumstances
- ➡ Meet multiple objectives
- ➡ Integrate with solutions or the plans of others
- ➡ ....and attract multiple funding sources
- ➡ Working with the environment, not against
- ➡ Accepted by communities
- ➡ ....and delivering wider benefits to society

All this more efficiently, faster and more often

**Change....how?**  
**Improve our appraisals**

# We must change too!

By:

- ➔ Being more open minded and receptive to new ideas
- ➔ Being more inclusive
- ➔ Considering more and different perspectives
- ➔ Being prepared to change and develop new skills
- ➔ Sharing experiences

# Thank you
