

ICZM - the “zipper”?

Stephen Worrall

Policy Advisor Flood Risk Planning

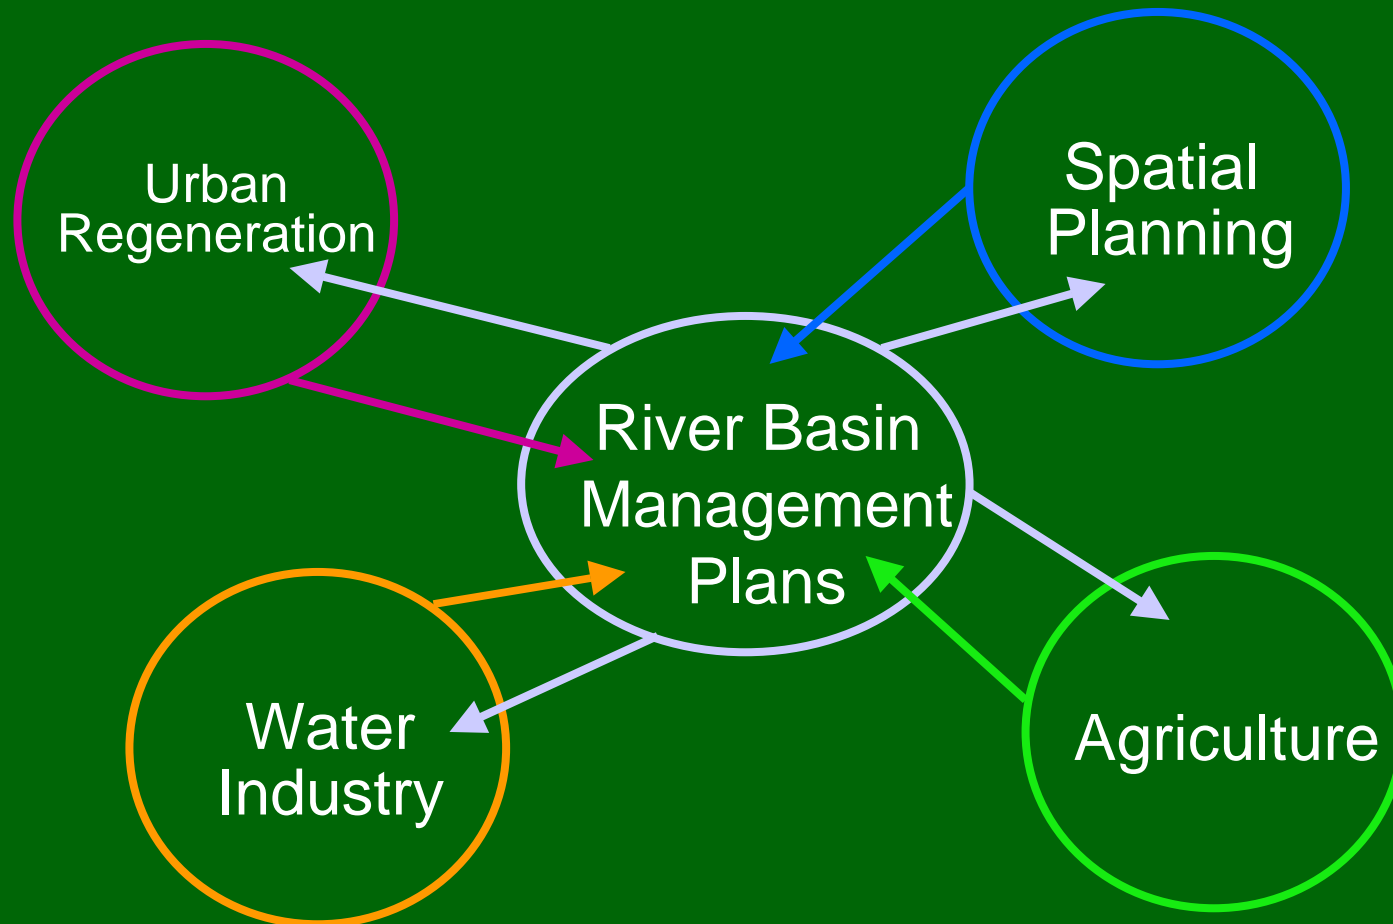

create a better place

ICZM: Integrated Coastal **Zipper** Management!

WFD

Integrated thinking

WFD

- Integrated river basin and coastal management
- Environment Agency is the UK lead authority
- Active involvement/Stakeholder engagement
- Partnership working

ICZM

How, who and what?

■ How and who?

Option	Duty	Power	Who Leads?
1	no	no	Existing authorities
2	no	yes	Existing authorities (possible AONB model)
3	yes	yes	Existing authorities
4	yes	yes	ICZM authority

Is it any different?

Too many authorities?

ICZM

Environment Agency Expectations:

- The natural environment must come first
- To make space for coastal change in the human environment
- To help our SMPs, RBMPs and Marine Strategy influence other plans and actions

Statutory - v - Permissive?

ICZM

To succeed must demonstrate:

- Effective conflict resolution
- Irresistible influence over associated plans
- Reduced consultation burden

Non-statutory mediation?

Who promotes single stream
consultation?

ICZM

The sum of its' parts:

Communities, stakeholders
Government, agencies, LA's
Agriculture, business, leisure

**How do we bring everyone to the
table?**

How will it be resourced?

Marine Bill:

**Partnership
with the
power to
deliver!**
