

**Diffuse pollution.
Defra's strategies for
non-agricultural and
agricultural diffuse
pollution.**

Issues Covered

- The Problem of diffuse pollution
- Non-Ag Sources
- Agricultural Sources
- CSF Delivery
- CSF Policy

Extent of the problem?

Non-Ag Sources

- Attributing Urban Diffuse Pollution
- CIRIA
- SUDS
- Sectors

Non-Ag Sectors

- Construction & Industrial Estates
- Transport,
- Forestry,
- Leisure and amenity,
- Urban land management and domestic sources,
- Atmospheric sources

Agricultural Sources

- 60 % Nitrates
- 44% Phosphates
- Further work?

Current Policies

- Nitrates Directive
- Revised Action Plans
- CAP Reform
- Decoupling and Cross Compliance
- Environmental Stewardship Schemes
- BaUll

CSF Delivery

- £25m for CSF Delivery starting April 2006
- CSFOs
- Priority Catchments
- What will be happening in the catchments
- Evaluation

CSF Policy

- Assessing the gap?
- IGER/ADAS Inventory Project
- Benefits Study
- Targeted Policy Measures
- Consultation

Conclusion

- Tackling diffuse pollution will be difficult
- Defra is examining agricultural and Non-Ag sources
- CSF Delivery Project starts soon
- CSF Policy examining other options
- Programmes of Measures
